 - ACKNOWLEDGMENT.—
 - The Commission shall explain and acknowledge—
 - How the American institution of slavery, as well as other examples enumerated in this resolution, represents intentional and blatant violations of every American’s most basic right to a free and decent life;
 - How the consequences of these oppressions have cascaded for centuries, across generations, beyond the era of active enslavement, imperiling for descendants of slaves and other targets of oppression what should have otherwise been every American’s right to life, liberty, and the pursuit of happiness;
 - How Reconstruction, the civil rights movement, and other efforts to redress the grievances of marginalized people were sabotaged, both intentionally and unintentionally, by those in power, thus rendering the accomplishments of these efforts transitory and unsustainable, and further embedding the racial hierarchy in our society;
 - The ways that other countries have reckoned with historical injustice and its aftermath, including through forming Truth and Reconciliation Commissions to move toward restorative justice and to return dignity to its citizens; and
 - How contemporary social science, medical science, and the rapidly expanding use of artificial intelligence and social media reveal the costs

and potential threats to our democracy if we continue to allow unhealed, entrenched divisions to be ignored and exploited.

○ ASSESS GOVERNMENT POLICIES.—

- The Commission shall assess government actions directed against Black, Brown, Latinx, Indigenous, Asian, and other populations of color, including—
 - The creation of the Federal Housing Administration, which adopted specific policies designed to incentivize residential segregation;
 - The enactment of legislation creating the Social Security program, for which most African Americans were purposely rendered ineligible during its first two decades;
 - The GI bill, which left administration of its programs to the States, thus enabling blatant discrimination against African American GIs;
 - The Fair Labor Standards Act of 1938, which allowed labor unions to discriminate based on race;
 - Subprime lending aimed purposefully at families of color;
 - Disenfranchisement of Native Americans, who, until 1924, were denied citizenship on land they had occupied for millennia;
 - Federal Indian Boarding School policy during the 19th and 20th centuries, the purpose of which was to “civilize” Native children through methods intended to eradicate Native cultures, traditions, and languages;
 - Land policies toward Indian Tribes, such as the allotment policy, which caused the loss of over 90 million acres of Tribal lands, two-thirds of which were guaranteed to Tribes by treaties and other Federal laws, and similar unjustified land grabs from Tribes that occurred regionally throughout the late 1800s and into the Termination Era in the 1950s and 1960s;
 - The involuntary removal of Mexicans and United States citizens of Mexican descent through large-scale discriminatory deportation programs in the 1930s and 1950s;
 - The United States annexation of Puerto Rico, which made Puerto Ricans citizens of the United States without affording them voting rights;
 - Racial discrimination against Latino Americans, which has forced them to fight continuously for equal access to employment, housing, health, financial services, and education;
 - The Chinese Exclusion Act of 1882, which effectively halted immigration from China and barred Chinese immigrants from becoming citizens of the United States, and which was the first instance of xenophobic legislation signed into law specifically targeting a specific group of people based on ethnicity;
 - The treatment of Japanese Americans, despite no evidence of disloyalty, as suspect and traitorous in the very country they helped to build, leading most notably to the mass incarceration of Japanese Americans beginning in 1942;

- The conspiracy to overthrow the Kingdom of Hawaii and annex the land of the Kingdom of Hawaii, without the consent of or compensation to the Native Hawaiian people of Hawaii;
 - The refusal to support European Jews by raising immigration quotas during World War II, notwithstanding overwhelming evidence of Nazi genocide and the urgent need to modify immigration policies so as to save human life;
 - Decades of inaction and inattention regarding the crisis of Missing and Murdered Indigenous Women; and
 - The United States history of colonialism in the Pacific, which has resulted in economic, health, and educational disparities among other inequities, for people in United States territories, as well as independent nations with which it has treaty obligations;
- ANALYZE.—
 - The Commission shall analyze—
 - How these governmental actions, among other government policies that have had racially disparate impacts, have disproportionately barred African Americans and other people of color from building wealth, thus limiting potential capital and exacerbating the racial wealth gap;
 - How this persistent wealth gap has had a significant negative impact on other racial disparities, such as the achievement gap, school dropout rates, income gaps, home ownership rates, health outcome disparities, and incarceration rates; and
 - How much of the progress toward racial healing and racial equity in the United States has been limited or reversed by our failure to address the root cause of racism, the belief in the myth of a hierarchy of human value based on superficial physical characteristics such as skin color and facial features.
 - MAKE RECOMMENDATIONS.—
 - The Commission shall recommend ways that the U.S. Government can—
 - Begin to address the unhealed, entrenched divisions within the United States and advance racial healing, understanding, and transformation;
 - Address this legacy of government-led and government-sponsored injustices, including through reparations programs that target those communities most impacted by these historical injustices;
 - Address all outstanding Native American land claims; and
 - Repair harms caused by placing Native American children in Indian Boarding Schools.

 - The term of office for members shall be for the life of the Commission. A vacancy in the Commission shall not affect the powers of the Commission and shall be filled in the same manner in which the original appointment was made.

 - A member of the Commission who is a full-time officer or employee of the United States or a Member of Congress shall receive no additional pay, allowances, or benefits by reason of his or her service to the Commission.
 - All members of the Commission shall be reimbursed for travel, subsistence, and other necessary expenses incurred by them in the performance of their duties to the extent authorized by chapter 57 of title 5, United States Code.
- PRESENTATION OF RECOMMENDATIONS. —
 - Such Commission must propose, within one year, recommendations to the Department of Interior on:
 - The forms and amounts of redress that will be available;
 - The proposed timing for beginning these programs; and
 - The oversight mechanism that will be used to verify that such programs are delivered to the intended beneficiaries.

SUBSECTION 3: VOTING JUSTICE AND ELECTIONS ACCOUNTABILITY

3A: Sense of Congress

- It is the sense of Congress that:
 - The vote is a fundamental right that has for too long been made inaccessible—and legally denied—to Black, Latinx, Indigenous, and other communities of color;
 - The Federal Government must protect the right to vote and guarantee free, secure, and accessible elections, including by passing the [Voting Rights Advancement Act](#) [Sewell], the [Washington, D.C. Admission Act](#) [Norton], and the critical supports for voting rights, voting accessibility, and voting infrastructure that are contained in the [For the People Act](#) (H.R.1) [Sarbanes]; and
 - The following programs are a first and important step toward realizing this objective.

3B: Federal Funding of Federal, State, and Local Elections

- PUBLIC FINANCING OF ELECTIONS.—
 - Create a public financing program for State and local campaigns that is powered by small dollar contributions. Such programs may be created through either:
 - A public financing program that gives a 6-1 match for donations less than \$200 (*See* Sec. 5213 of [For the People Act](#) (H.R.1) [Sarbanes]); or
 - A Democracy Voucher Program providing State or city residents a small amount of public money that may be donated to participating candidates.
- FEDERAL ELECTION STANDARDS.—
 - AUTHORIZATION.—
 - Authorize the U.S. Election Assistance Commission (“EAC”) to establish clear, uniform standards (“Federal Election Standards”) for all federal elections, using a note-and-comment rulemaking procedure.
 - COMPONENTS.—
 - Such standards shall incorporate the following components:
 - Standards for optimal ballot design, which reflect the results of an EAC report (*See* Sec. 1506 of [For the People Act](#) (H.R.1) [Sarbanes]);
 - Accessible, universal, and automatic voter registration processes, including pre-registration for 16-year-olds and a process that allows individuals to update their addresses easily when they move, as well as list PO boxes as their address of record (*See* Secs. 1011 - 1021 of [For the People Act](#) (H.R.1) [Sarbanes]);
 - Same-day voter registration processes and the possibility of Online Voter Registration (*See* Secs. 1001-1005, 1031 of [For the People Act](#) (H.R.1) [Sarbanes]);
 - Unhindered access to vote-by-mail (*See* Sec. 1621 of [For the People Act](#) (H.R.1) [Sarbanes]), including a universal system for tracking absentee/mail ballots, and ensure that this system is:
 - Is available to all eligible voters;
 - Does not require witness or notaries; and
 - Is a permanent vote-by-mail program that people can opt into;

- Designation of corrections institutions that incarcerate eligible voters as Voter Registration Agencies covered by the National Voter Registration Act;
- Provision of at least 15 days of early voting time during all federal elections (*See* Sec. 1611 of [For the People Act](#) (H.R.1) [Sarbanes]);
- Adequate voting hours at all polling locations (*See* Secs. 1611, 1907 of [For the People Act](#) (H.R.1)[Sarbanes]);
- Allowing voting using a sworn statement of identity, rather than a government-issued identification card (*See* Sec. 1903 of [For the People Act](#) (H.R.1) [Sarbanes]);
- A ban any “automatic” voter purge process based on non-voting, whereby an individual is removed from the voting rolls without having expressed a written desire to be removed, barring exceptional and extenuating circumstances that show objective evidence of a legitimate reason (e.g., death of the voter) to remove the voter (*See* Secs. 2501-2502 of [For the People Act](#) (H.R.1) [Sarbanes]);
- Enfranchise all formerly and presently incarcerated people;
- Create and implement policies sufficient to ensure that all eligible jailed or imprisoned voters within the jurisdiction can access their constitutional right to vote;
- Contingency voting plans for national or state-wide emergencies and/or lock-downs, such as public health crises or pandemics; and
- Except for polling locations that are designed to serve incarcerated individuals, the requirement that polling locations be at non-carceral facilities (e.g., not inside police stations or sheriffs’ offices) and accessible to people with disabilities.
- ENDING PRISON GERRYMANDERING.—
 - Incorporate Sec. 2701 of the [For the People Act](#) (H.R.1) [Sarbanes].
- OVERSIGHT OF ELECTION ADMINISTRATION.—
 - Authorize the appropriation of sufficient funding such that the EAC can:
 - Collect data on jurisdictions, evaluating their performance on:
 - Voter registration overall and disaggregated by race, ethnicity, age demographic, and gender (*See* Sec. 1051 of of [For the People Act](#) (H.R.1) [Sarbanes]);
 - Voter turnout overall and disaggregated by race, ethnicity, age demographic, English proficiency, and gender;
 - Average wait-times for in-person voting; and
 - Documented incidents of discrimination, using such data sources as are deemed to use a consistent, high-quality, uniform methodology;
 - Use data collected to identify jurisdictions that:
 - Pose particular barriers to voting access; and
 - Have below-average turnout differentials based on race, disability status, residence on a Tribal reservation, limited English proficiency, or any other protected characteristic;
 - Working with identified jurisdictions, collaboratively develop and provide funding for plans that will:

- Maximize voter turnout among all demographic groups, including an end to differentials that are based on race, disability status, residence on a Tribal reservation, limited English proficiency, or any other protected characteristic; and
 - Ensure that all jurisdictions are meeting the Federal Election Standards requirement described in this Subsection.
- FEDERAL ELECTION STANDARDS REQUIREMENT.—
 - REQUIREMENT TO FOLLOW FEDERAL STANDARDS.—
 - All States must follow the Federal Election Standards that are set forth by the EAC for all federal elections.
 - FUNDING AUTHORIZATION.—
 - The EAC shall operate a formula grant that awards States sufficient funding to cover all costs that are associated with meeting these Federal Election Standards in all federal elections that are conducted within the State.
- FUNDING OF STATE AND LOCAL ELECTIONS.—
 - ESTABLISHMENT OF COMPETITIVE GRANT.—
 - The EAC shall establish a competitive Voting Justice Grant Program that provides selected States and local governments full funding of local and State election administration costs (“full funding”), contingent on States meeting the competitiveness criteria.
 - COMPETITIVENESS FRAMEWORK.—
 - The EAC shall develop a competitiveness framework that awards full funding to State and local governments provided that they adhere to the Federal Election Standards in their State and/or local elections; and
 - The EAC may award additional, incentive-based funding to States and localities if they meet certain goals toward increasing overall turnout while eliminating registration, turnout, or access disparities between racial and ethnic groups.
- FUNDING AUTHORIZATION.—
 - From funds in the Treasury not otherwise appropriated, there are appropriated to the Secretary such sums as may be necessary to implement this Subsection.

 - Incorporate the [Ending Qualified Immunity Act](#) [Pressley / Amash] to end qualified immunity.
